STF-106FTB SIM/TECH FILTER
float tree brackets

FEATURES

- Use on all systems requiring floats
- Attaches easily to the inside of the pump chamber riser with your choice of three 1/4" holes
- Eliminates the need to enter hazardous space to install, adjust, or inspect floats
- Keeps floats away from the submersible effluent pump to virtually eliminate float hang up
- Keeps pump discharge pipe clear of floats, wires, and straps for easy pump removal and replacement
- Available to fit 1", and 1 ¼" & 1 ½" tree
